

23<sup>rd</sup> March 2022

Dear Parents/Carers,

**Re: Family Gardening Saturday 26<sup>th</sup> March 10.00am to 11.30am**

Following the positive response to asking if we had families interested in a Saturday gardening session, I am pleased to send further details of this Saturday. Miss Woods, our Forest School Teacher, will be leading this session. The weather forecast is good so it should be a lovely morning.

- If there is inclement weather we will cancel and I will inform you by text at 8.00am
- Session is 10.00am to 11.30am – please come to the field gate
- We have limited tools – please bring any tools that you have and can share with you: *spades, buckets, wheel barrows and secateurs*
- All children MUST be accompanied by adult
- We will not be planting
- We will be clearing the pond and vegetable patch to make way for planting by children after Easter
- It will be hard work – lots of soil to move
- It is a working session to improve the school grounds
- Please remember sunscreen and water, as well as wearing appropriate clothing.
- Gloves might be useful.

You are still welcome to join us, even if you did not say yes when we originally asked. If you did say yes but can no longer come, that is ok. You do not need to reply – please just turn up at 10.00am on Saturday! We are really looking forward to seeing you and can't wait to see the results!

Yours faithfully,

**Karen Kondo**  
Headteacher
